REQUIRED MATERIALS

TEXTBOOK & MINDTAP: Principles of Macroeconomics (8th edition) by Mankiw

This course is part of MU’s AutoAccess program. You can access the digital content for the course through Canvas on the first day of class automatically. Your student account will be charged \$108.99 on **January 30, 2018** for the cost of the digital course materials. There is also a required printed text available for sale at the Mizzou Bookstore for \$27.95. In the past, there have been problems accessing the Auto Access version, and the printed version is a relatively inexpensive way to always have access to the textbook. If you have questions please visit www.themizzoustore/autoaccess, call 573-882-7611 or email AutoAccess@missouri.edu.

Students who wish to opt out of either the Auto Access or the printed version do have the option of doing so, but doing so is their own responsibility. If you choose to opt out, you must do so by **January 30, 2018**. See the AutoAccess hand-out (posted on Canvas) for details on how to do it. If you opt out, please make sure that you do purchase separate access to MindTap from Cengage. MindTap will be used extensively throughout the course, and your work on MindTap will count towards your semester grade.

A PHYSICAL CLICKER: Register your clicker in the course Canvas site.

ACCESS TO THE WSJ: Read the Economy and Business sections of the Wall Street Journal (WSJ) on a daily basis. You may subscribe at “www.wsj.com/studentoffer”.

COURSE DESCRIPTION

This course provides an introduction to Macroeconomics, the study of country-level and regional economic phenomena, such as business cycles, growth, inflation, interest rates and unemployment. Students will become familiar with basic indicators of economic well-being, the interplay between these indicators over time and across countries, and how different groups of people are affected by the disruptive forces of globalization and technological innovation. Students will also learn competing theoretical models and employ these to diagnose economic policy problems and evaluate competing economic policy proposals through the lens of equity and efficiency. These applications of the “economic way of thinking” to real world controversies helps foster systematic, objective and critical analytic skills. Topics include: economic growth and development over time and across nations; international trade and finance; poverty, inequality and unemployment; inflation and the cost of living, the tax system, the financial system and financial regulation, the causes and consequences of business cycles; and the effects of monetary and fiscal policy interventions.

ATTENDANCE AND PARTICIPATION POLICY

You are expected to **attend all lectures**. Your attendance and participation will help you learn the material more efficiently and better, and **may** also help you obtain a higher grade at the end of this semester (in borderline grade cases). In case of unavoidable absence, note that you are still responsible for all material covered in the missed lecture and any shortcomings that may result from missing class (e.g., missing extra credit opportunities).

i-CLICKER REEF POLLING

We will be using **REEF Polling by i>clicker** in class. REEF Polling helps me to understand what you know and which concepts you have difficulty with, gives everyone a chance to participate in class, and allows you to review the material after class. I will use REEF Polling to administer Pop Quizzes and to keep track of attendance. Please refer to the **ATTENDANCE AND PARTICIPATION POLICY**.

I consider submitting votes for a fellow student to be cheating and a violation of the University **ACADEMIC INTEGRITY POLICY**. If you are caught voting for another student or have votes in a class that you did not attend, you will forfeit all attendance records, receive an “F” and may face additional disciplinary action by the University. Please follow the instructions given out via the first day of class (or the course Canvas) on how to register your physical i-clicker. **Bring your clicker to all lectures!**

THREE EXAMS (A TOTAL OF 450 POINTS) AND EXAM SCHEDULE (TENTATIVE):

There will be two midterm exams and a comprehensive final exam. Each exam will cover the class material (lectures, text, MT, worksheets, WSJ, etc.) up to the date of the exam and they will only consist of multiple choice questions.

Exam 1 (125pt):	6:15-7:30 p.m., Tuesday (February 20 th , 2018)

In case of an Emergency situation (e.g., military order, illness, death in the family):

Please e-mail the class account at the earliest possible time. *In order for absences on exam or quiz dates to be excused, **notification must be given in writing (via e-mail)** and **proper documentation** (e.g., military order in advance, doctor's note upon your return) is required. When you go through a death in the family, send me a statement, via e-mail, telling the deceased's name & the relationship to you and provide me with a copy of the obituary upon your return.* You will be excused if you follow this procedure.

NOTE: If you miss one of the midterm exams **with an accepted excuse**, your final exam will be graded on the basis of 325pts (instead of 200pts). If you have a valid excuse to miss both midterms or to miss the final on the scheduled dates, you will receive an "INCOMPLETE" for the semester grade. If you miss either **both midterms** or **the final exam without a valid excuse**, you will automatically receive an "F".

HOMEWORK (HW) AND IN-CLASS (IC) QUIZZES (A TOTAL OF 80 POINTS)

Two HWs and two IC quiz scores will count toward your semester grade. There will be three HWs and three IC quizzes (worth 20-points each) administered so that you may drop your lowest HW and your lowest IC quiz scores, or be excused from one of each during the semester.

You may **submit HW** to your TA **in advance** in case of a scheduled absence on the due date. Otherwise, HW will be collected in class **between 9:20am and 9:30am** on the due date. Any submission after **9:30am** on the due date is considered to be late. **No late homework** will be graded, even if it is only one minute late. Note that only your two highest scored HWs will count toward your grade.

IC_Quizzes will **only** be administered during **scheduled times**. Note that only your two highest scored Quizzes will count toward your grade. Quiz questions will be a combination of multiple-choice and short problem solving, and will typically be similar to questions in MindTap, pop quizzes, HW and/or worksheets.

NOTE: You are encouraged to cooperate with your classmates on homework (work in groups, discuss the solutions). However, you must submit your own handwritten copy with your name on it.

NOTE: Missed or late HW, unexcused (i.e., no documentation) missed quizzes and exams will be scored as **zeros**.

NOTE: Although the questions on HW, IC quizzes, MTAs and the worksheets are not limited to multiple choice questions, they will reinforce your learning of class material and will prepare you for the main exams.

MINDTAP ASSIGNMENTS (MTA: A TOTAL OF 50 POINTS)

There will be twelve MTAs (worth 5-points each) offered, but only ten MTA scores will count toward your semester grade. Two extra MTAs will be scheduled so that there is no need for any make-up and you may drop your two lowest MTA scores if you take all twelve.

A MTA is due **at noon on every Friday**, through the course Canvas site. On the same day, a new MTA will be posted that will be due **at noon** on the following Friday. You will be given *a week* to complete each MTA. Please **check your MTA grade immediately** after the completion of each MTA.

The MTA will provide feedback on your reading comprehension, test your ability to apply your understanding of reading material and prepare you for the main exams. Please open the MTA for the week after you have completed the reading assignments, video lessons, other chapter exercises as well as **Practice & Problem Areas** in MindTap in order to maximize your score.

In case of potential computer problems, I urge you to *complete each MTA before 11am* on the due date.

POP QUIZZES (POP_Q: A TOTAL OF 20 POINTS)

Using i-clicker, there will be eleven unannounced Pop Quizzes (worth 2 points each) during the lecture, but only the top ten Pop_quiz scores will count toward your semester grade.

"The Unexamined Life Is Not Worth Living." Socrates

READING & MINDTAP ASSIGNMENTS AND LECTURES

Upon reading the assigned chapter in the *Text*, watch the posted instructional videos and work through the chapter exercises in *MindTap* prior to the due date. Lecture material is based upon the assumption that all assignments have been completed. *Lectures* build on the assignments and previous lectures. Hence, it will be crucial for you to attend every lecture and keep up with all class assignments and lecture material. Lectures will include **NOT ONLY** material from the text, **BUT ALSO** other related concepts and examples, and current policy discussions regarding the U.S. economy in the media.

You are responsible for the material covered in the course. **IN CASE OF UNAVOIDABLE ABSENCE**, obtain lecture notes from classmates. The instructor's or TAs' lecture notes will not be available to you.

WORKSHEETS

Additional worksheets will be posted on the course Canvas regularly according to the lecture discussion of a topic. Most of the worksheets are additional problems that you should work on but they are not collected.

INTELLECTUAL PROPERTY NOTICE

All course materials including but not limited to the syllabus, course assignments, study guides, learning guides, online lecture videos and content, and lab book (i.e. course pack) are property of the instructor and University and may not be shared online or distributed in any manner to others. Students are expected to adhere to this pledge on all graded work whether or not they are explicitly asked in advance to do so.

The University has specific academic dishonesty administrative *procedures*. Although policy states that cases of academic dishonesty must be reported to the Office of the Provost for possible action, the instructor may assign a failing grade for the assignment or a failing grade for the course, or may adjust the grade as deemed appropriate. The instructor also may require the student to repeat the assignment or to perform additional assignments. In instances where academic integrity is in question, faculty, staff and students should refer to *Article VI of the Faculty Handbook*. Article VI is also available in the *M-Book*. Article VI provides further information regarding the process by which violations are handled and sets forth a standard of excellence in our community.

ACADEMIC INTEGRITY POLICY (FROM OFFICE OF THE PROVOST)

Academic integrity is fundamental to the activities and principles of a university. All members of the academic community must be confident that each person's work has been responsibly and honorably acquired, developed, and presented. Any effort to gain an advantage not given to all students is dishonest whether or not the effort is successful. The academic community regards breaches of the academic integrity rules as extremely serious matters. Sanctions for such a breach may include academic sanctions from the instructor, including failing the course for any violation, to disciplinary sanctions ranging from probation to expulsion. When in doubt about plagiarism, paraphrasing, quoting, collaboration, or any other form of cheating, consult the course instructor.

Academic Dishonesty includes but is not necessarily limited to the following:

- A. Cheating or knowingly assisting another student in committing an act of cheating or other academic dishonesty.
- B. Plagiarism which includes but is not necessarily limited to submitting examinations, themes, reports, drawings, laboratory notes, or other material as one's own work when such work has been prepared by another person or copied from another person.
- C. Unauthorized possession of examinations or reserve library materials, or laboratory materials or experiments, or any other similar actions.
- D. Unauthorized changing of grades or markings on an examination or in an instructor's grade book or such change of any grade report.

INTELLECTUAL PLURALISM STATEMENT

The University community welcomes intellectual diversity and respects student rights. Students who have questions or concerns regarding the atmosphere in this class (including respect for diverse opinions) may contact the departmental chair or divisional director; the director of the [Office of Students Rights and Responsibilities](#); the [MU Equity Office](#), or equity@missouri.edu. All students will have the opportunity to submit an anonymous evaluation of the instructor(s) at the end of the course.
